A sister city relationship is a long-term, cooperative relationship between two cities in different countries through which cultural, educational, business, and technical exchanges take place. It is formalized when two mayors (or highest elected/appointed officials) sign a memorandum of understanding establishing a sister city relationship. Activities are usually organized and implemented by volunteers, local institutions, and municipal employees. A city may have any number of sister cities.

Sister Cities International is a nonpartisan 501(c)(3) nonprofit organization that serves as the national membership organization for individual sister cities, counties, and states across the United States. Sister Cities International recognizes 185 international partnerships with 37 Florida communities. Out of the Sister City partnerships by U.S. state, Florida has the second largest number of partnerships. Please note that this number is not representative of all sister city relationships in Florida and only denotes those currently active with the organization. Membership in the organization is not a requirement for U.S. cities, counties or states.
